

Dear Customer

THANK YOU for your purchase at **Lednordic**

We hope you enjoy your purchase with us and enjoy the little glimpses of life.

This user manual is intended for LED Christmas tree lights

Use:

- Unscrew the base of the light.
- Insert 1 x AAA battery
- Screw the base on until the light switches on - do not tighten hard as this will damage the technology.
- The light switches on and then the remote control can be used (additional purchase item no. 90000)

Safety:

- Do not expose the product to shock, impact, moisture or water.
- Do not place the product near heat or in direct sunlight as it will melt.
- The product must be returned to a recycling centre
- Do not attempt to repair these products yourself.
- Keep the product away from chemicals or heat that can damage the product.

Should you have any questions about the product, you are more than welcome to contact us.

With best regards

LED  NORDIC

Enjoy the little glimpses
